SAMPLE NOTES - NOT AN OFFICIAL DOCUMENT. Registration. A business that supplies only goods must take GST registration when its aggregate turnover in a financial year exceeds Rs 40 lakh. For businesses supplying services the limit is Rs 20 lakh. Lower limits apply in some special category states. Inter-state supply of goods generally needs registration regardless of turnover, with limited exceptions.

Composition scheme. A small taxpayer whose aggregate turnover is up to Rs 1.5 crore can opt for the composition scheme and pay tax at a fixed percentage of turnover instead of the normal rates. Traders and manufacturers pay 1 percent of turnover. A composition dealer cannot claim input tax credit, cannot collect tax from customers, issues a bill of supply instead of a tax invoice, and cannot make inter-state outward supplies.

Returns. Regular taxpayers file GSTR-1 (details of outward supplies) by the 11th of the following month and GSTR-3B (summary return and payment of tax) by the 20th of the following month. Taxpayers under the QRMP scheme, with turnover up to Rs 5 crore, can file returns quarterly and pay tax monthly.
